**SPAs**

**IN THE FUTURE**

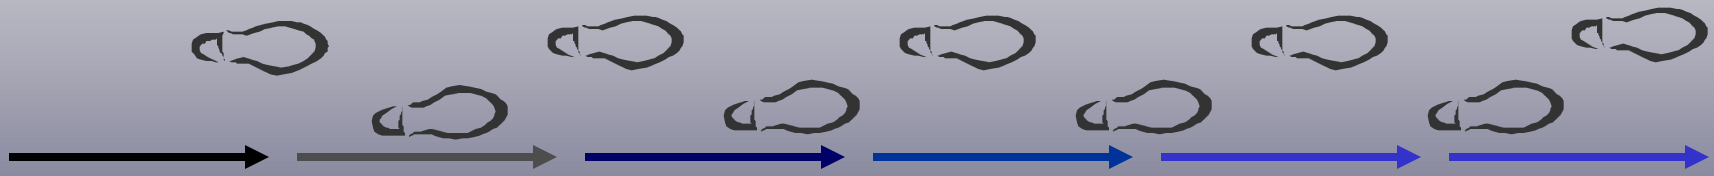

**More than 70%  
on planet earth is water...**

**More than 70%  
of the human organism is water...**

**During your entire life  
you stay the same person,**

**but you are travelling  
in completely different bodies**

**So many set off in search of the legendary fountain of youth...**

**...but nobody has ever found it.**

# **Spa – origin, significance and values**

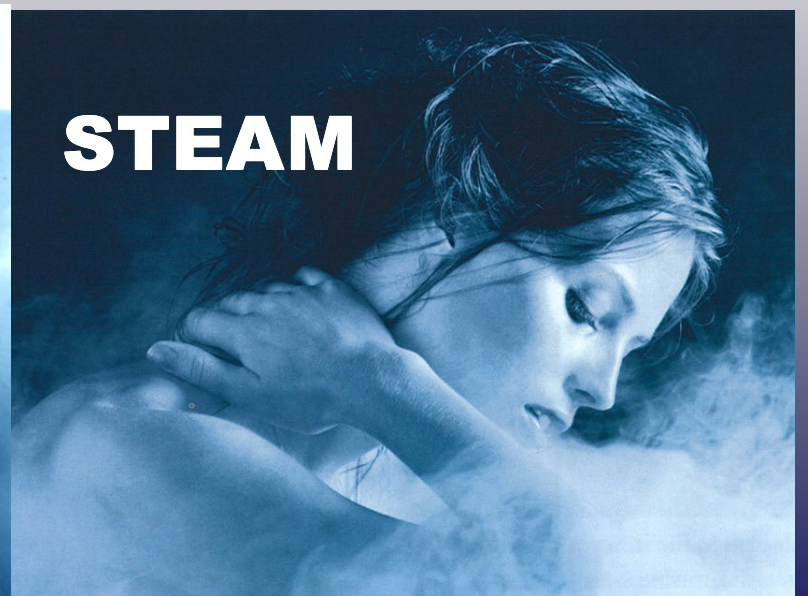

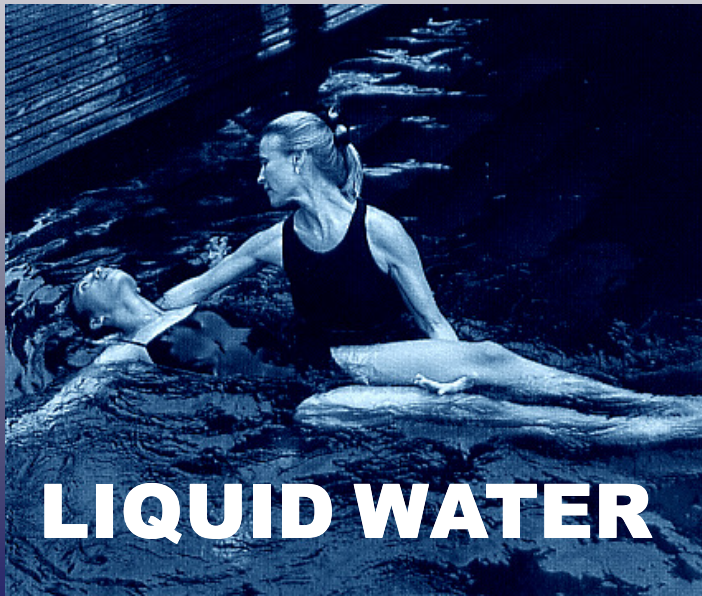

**„Give me the power to cause fever  
and I can cure any illness!“**

**(Parmenides, Greek doctor and philosopher 500 BC)**

# SPA

is the acronym or shortcut of the Latin phrase  
„Sanus per Aquam“  
= „wellbeing through water“

# SPAs IN THE FUTURE

The target for the future Spa: Wellbeing of the human

We had to focus on

prevention

Social aspects

will play a major role

therapeutical profundity

regarding treatments

Implement „rituals“ to  
prepare body and soul

using the curativeness of heat

using the virtue of water

technology

BASED ON

architecture / design

**New technologies combined  
with the knowledge of the past  
will be the strategy  
for the „future Spa“.**

**At the end of the day,  
*The Spa of the future*  
will be close to  
*The Spa of the past***

**The human being had to be the target –**

**Focussing his organism  
will bring body and soul in balance**
